Trip Report

The stunning male Green-crowned Plovercrest by Stefan Johansson

Trip report compiled by tour leader: Andy Foster

Tour Summary

SATURDAY 12TH NOVEMBER

Due to flight availability and other factors the whole group was to arrive a day earlier than per the correct tour dates. 5 members of the group were collected from Terminal 2 in Rio International Airport at 11.00 and by 11.20 we had the minibus loaded up and together with our driver Serginho we quickly joined the rather large traffic jam and set off at a rather slow crawling pace out of Rio! We headed north-east towards the mountains and within 40 minutes we had left the majority of traffic and congestion behind and were heading up towards the Lodge. We did pick up a few species around the Guanabara Bay area heading out of Rio, these were Magnificent Frigatebird, Brown Boobie, Great Egret, Grey-headed Gull, Cocoi Heron and Southern Lapwing.

By 12.30 we were already seeing the mountains that we were to be birding in and around for the next week. It was quite overcast so views were not great, but certainly lots of good forest around!

After the town of Cachoeiras de Macacu we started to climb up through the mountains and some spectacular scenery until we reached 1080 metres in altitude where we crossed over to the other side of the mountains and headed on towards Nova Friburgo.

Brassy-breasted Tanager by Andy Foster

Just before Nova Friburgo we took a right hand turn and 20 minutes later we were arriving at the beautiful Itororo Lodge where we were to be based for the next 8 nights heading out on daily excursions to cover the whole elevational range of the surrounding mountains. We were warmly greeted at the Lodge by Rainer and his sister Bettina who were to be our hosts for our stay.

Itororo lodge is beautifully located at 1200m in altitude, surrounded by forest it really is quite stunning, this together with feeders full of birds and an excellent trail system makes it a really great base for us. After spending 15 minutes or so watching the feeders and picking up species such as Black Jacobin, Scale-throated Hermit, Violet-capped Woodnymph, Sombre Hummingbird, White-throated Hummingbird, Brazilian Ruby and our first couple of tanager species, Ruby Crowned and the stunning Brassy-breasted Tanager we headed in for a great lunch of beef stroganoff.

After lunch the group were free to unpack or bird around the lodge for the rest of the afternoon as the tour was to start proper on Sunday morning. We did however pick up several species during the afternoon including Burnished Buff Tanager, Ruby-crowned Tanager, Maroon-bellied Parakeet, Scaled Woodcreeper, Pallid Spinetail, Crested Oropendola, Rufous-collared Sparrow, Dusky-legged Guan, Picazuro Pigeon, Hooded Siskin, Rufous-headed Tanager, Azure-shouldered Tanager, Sayaca Tanager, Yellow-legged Thrush, Bananaquit and Buff-fronted Foliage Gleaner.

Dinner was served at 19.00 and after completing the first checklist of the trip we retired for an early night.

Our trusty driver Serginho set off back to Rio mid-afternoon to collect the last two members of the group (John and Ricardo) who were due to arrive early evening into Rio airport. They arrived safe and well at the Lodge at 01.30 having come across some localised flooding that closed the road for a while. Exhausted and with a 06.00 start we retired to bed soon after!

Bertoni's Antbird by Stefan Johansson

SUNDAY 13TH NOVEMBER

After a night of heavy rain we awoke to an overcast morning with light rain. We had breakfast at 06.00 and headed off on the Blue Trail, a circular route within the lodge grounds. Although we had light rain all morning we had a really productive time with lots of new birds. One of the first birds we saw was a very cooperative Black-billed Scythebill, it responded well to playback and put on a great show! Other highlights for the morning included Fawn-breasted Tanager, Rufous-headed Tanager, Large-tailed Antshrike, Ochre-rumped Antbird, Green-winged Saltator, Rufous-capped Spinetail, some lovely male Blue Manakins, Buff-fronted Foliage Gleaner, Pallid Spinetail, White-rimmed Warbler, Planalto Woodcreeper,

Chestnut-crowned Becard, Bare-throated Bellbird, Plumbeous Pigeon (although rather distant!), Black-throated and Surucua Trogon, Drab-breasted Bamboo Tyrant, Ochre-faced Tody Flycatcher, Whiskered Myiobius, Yellow-legged Thrush, Black Goggled Tanager and amazing views of Bertoni's Antbird! Just as we arriving back at the lodge we came across a good mixed flock with several new species including Variable Antshrike, Yellow-browed Woodpecker, Rufous-crowned Greenlet, Streaked Xenops, Yellow-eared Woodpecker and Lesser Woodcreeper.

We arrived back at the lodge at 12.00 and went straight into lunch of fejoada, a mix of black beans and pork sausage served with manioc flour, kale, rice and salad, washed down with a nice cold beer for some, after a good mornings walk the lunch did indeed go down very well!

We had a break after lunch and set off again at 14.30 to bird along the White Trail, unfortunately the rain had increased in volume but it was still worth giving it a go! Before leaving the lodge we used playback and called in a nice male Green-backed Becard. We only picked up a few new birds during the afternoon but some good ones, these included Orange-eyed Thornbird, Rufous Gnateater and White-browed Foliage-gleaner. By 16.30 it was really beginning to rain and the bird activity had dropped to zero so we headed back to the lodge for some welcome tea and coffee and watched the feeders for the rest of the afternoon. Birds of note included Maroon-bellied Parakeet, Crested

Oropendola, Piratic Flycatcher, Azure-shouldered Tanager, Burnished buff Tanager and Ruby-crowned Tanager. The hummingbird feeders were also very busy and were having regular visits from Violet-capped Woodnymph, Scale-throated Hermit, Black Jacobin, Sombre Hummingbird, Brazilian Ruby and White-throated Hummingbird.

We had planned to have dinner early tonight at 18.00 to give us enough time to go owling and look for Nightjars but the rain just didn't let up so we completed the days checklist after dinner and called it a day, with fingers crossed for better weather tomorrow!

MONDAY 14TH NOVEMBER

Unfortunately, after a night of non-stop rain we woke up to more rain! We decided to head down to the wetland area as it's situated in the lowlands and generally there is less chance of rain there. We took a drive of 1.5 hours stopping a couple of times, once for a couple of Whistling Herons and again for a Burrowing Owl. It didn't stop raining once during the journey and although slightly lighter it was still raining at the wetlands.

Black-throated Trogon by Stefan Johansson

We got dressed up in our waterproofs and headed off on the trail around the wetlands and towards the lowland forest. Despite the rain we began to pick up new species including Common Gallinule, Yellow-chinned Spinetail, Smooth-billed Ani, Red-rumped Cacique, Yellow-lored Tody Flycatcher, White-headed Marsh Tyrant, Masked Water Tyrant, Glittering-throated Emerald, Brazilian Tanager and Lemon-chested Greenlet. It was still raining quite heavily as we continued into the lowland forest. There was pretty much no bird activity at all, nothing calling and although we tried for many species during the morning with playback etc there was very little response apart from a Sooretama Slaty Anthsrrike and some Flame-crested and Yellow-backed Tanagers. Midday came and we made our way to the hide and sat down for lunch, here we picked up better views of Greater Ani, Yellow-headed Caracara and a Black-crowned Night-Heron.

Come 12.30 the rain was relentless so we decided to head back to the minibus and drive back up the mountains to see if the weather was any better, but it was worse! We arrived back at the lodge at 14.45 to some fresh coffee, tea and cake and spent the rest of the afternoon relaxing around the lodge.

TUESDAY 15TH NOVEMBER

Today we woke to the sight of more rain and decided to head back over the mountains to the Cedae Trail to see if it was any drier there. We began birding with quite a bit of rain and then suddenly the weather opened up with sunny patches and blue sky, we were all really quite relieved.... until the weather closed in again and poured with rain on and off for the rest of the morning.

Although the birding conditions were pretty hard we did get some good birds including Pale-browed Treehunter, Plain Parakeet, Channel-billed Toucan, Star-throated Antwren, Streak-capped Antwren, Black-cheeked Gnatcatcher, Grey-hooded Flycatcher, Eared Pygmy Tyrant, Crested Becard, Olive-green Tanager and Black-throated Grosbeak. We had seen some great birds, but really hard to bird in these conditions!

We were back at the minibus by 12.00 and had lunch together with better views of both Green-headed and Red-necked Tanagers. I telephoned the Lodge to see if the weather had improved, it had done so, so we took the 40 minute drive back, had half an hour break then did the white trail. It's amazing how much easier and successful the birding is with better weather! We had a good afternoons birding with species responding much better to playback, such a relief! We had good views of a beautiful male Pin-tailed Manakin, Such's Antthrush, White-collared Foliage Gleaner, Orange-eyed Thornbird, Ochre-faced Tody Flycatcher and then used playback on a Giant Antshrike, she responded well but didn't want to show that well (!) so we recorded her own call, played it back.... and before we knew it she was showing really well giving great views and good photographic opportunities!

After a nice afternoons birding we returned to lodge for dinner at 18.00, we started to do the checklist and stopped half way through to go out and look for some nightjars and owls.

We arrived at the Nightjar spot and first up we had a Short-tailed Nighthawk flying over us, shortly afterwards the stunning Long-trained Nightjar appeared, fly over us quickly and landing further up the hill behind, we walked up and managed to get great views and photos of this beautiful bird!

A Common Potoo started to call, we used some playback and it flew over us but unfortunately didn't stop. We then played Rusty-barred Owl that was calling distantly, within 5 minutes a pair had flown in close by and we managed to get good views of one of the birds, a great way to finish the day that had started so wet and damp! I must say that we were all very relieved that the rain had finally stopped, it had been the worst prolonged rain and quantity of rain for 5 years! Hard work but we managed to get through it.

WEDNESDAY 16TH NOVEMBER

We awoke to thick low cloud but as we ate breakfast the cloud started to slowly clear and by departure time at 06.30 we could see some of the distant mountains from the deck area. We decided to go to Duas Barras and Sumidouro area today in search of the Three-toed Jacamar and various other target

Long-trained Nightjar by Stefan Johansson

species, it would also be a nice contrast to have some open country birding.

As we drove through the town of Nova Friburgo and towards Bom Jardim the sky became clearer and the sun appeared, our fingers were crossed for a good days birding. An hour after leaving the lodge we had our first scheduled stop on the road to Duas Barras where we picked up great views of Streamer-tailed Tyrant, Rufous Hornero, White-bellied Seedeater, Blue-winged Macaws, White-eyed Parakeets, Common Thornbird and Blackish Rail, the day was already off to a good start!

Crescent-chested Puffbird by Stefan Johansson

We all got back into the minibus and drove on to our next stop where we picked up some great endemics including Serra Antwren, Yellow-lored Tody Flycatcher and Half-collared Sparrow, then John said “Andy, take a look at this”, amazingly he had a juvenile Crowned Eagle perched up in the scope, what a fantastic bird! Shortly afterwards we also picked up a very nice Crescent-chested Puffbird and Rufous-thighed Kite.

We drove on for a further 10 minutes to another area and picked up Crested-black Tyrant, Grassland Sparrow, Pale-breasted Spinetail, White-tailed Hawk,

White-rumped Swallow and White-rumped Monjita. We headed down into the town of Duas Barras where we stopped for a coffee and cake and then drove onto a dirt road that leads to Sumidouro where we would bird until lunch time. We had some great birds along this road including Firewood Gatherer, Blue-winged Parrotlet, Chestnut-capped Blackbird, Fork-tailed Flycatcher, Yellow-browed Tyrant, Gilt-egged Tanager, Lesser Woodcreeper, Hangnest Tody Tyrant, Green-backed Becard, Toco Toucan, Guira Cuckoo, Slaty-breasted Wood Rail, Tawny-headed Swallow and White-eared Puffbird.

After lunch we decided to drive straight to the Three-toed Jacamar spot as there were some rather dark clouds building up. We arrived at the track where the Jacamars reside and took a short walk before getting to the correct spot. There was no sign of the Jacamars so we used some playback and within a couple of minutes we had 2 Three-toed Jacamars sitting right above us and giving some good views. We also picked up Yellow Tyrannulet, Hooded Tanager, White-winged Becard and Chestnut-vented Conebill at the same spot.

We all boarded the minibus again and started heading back towards Nova Friburgo with one more scheduled stop where we had some good views of Black-necked Aracari. After a great days birding we departed back to the lodge and arrived at 17.15, time enough for showers before meeting up again for dinner! We had a well earned dinner and completed the days checklist, we had seen an impressive 113 species during the day!

THURSDAY 17TH NOVEMBER

So another day dawned and unfortunately it was once again very overcast, whilst we were having breakfast it started to rain again. We were to spend the day birding the lodge grounds and by 06.45 the rain had eased so we set off on the circular Blue Trail for the morning. Suddenly the clouds broke and the sun came out, birds started to call and we were ready for some action! First up we managed to call in a Grey-capped Tyrannulet, this was followed by a White-winged Becard and Chestnut-crowned Becard. We set off into the forest and I started playing for Dusky-tailed Antbird at a known territory. There was no response but we did hear a distant Brazilian Antthrush calling so we headed towards the area and started using playback. The bird responded well but was hiding away behind a little ridge and only a couple of us got to see it as it passed by a little open area quickly. We spent some further time trying to see it but it clearly was not going to play! During this time the Dusky-tailed Antbird had started to call so we went back to the spot and managed to get great views of a male, fantastic!

Rusty-barred Owl by Stefan Johansson

We continued on our way and picked up another White-rimmed Warbler, various Buff-fronted Foliage Gleaners and a Rough-legged Tyrannulet, then it started to rain again! This bad weather was now becoming really quite tiresome! By 09.20 the rain was torrential so we decided to head back to the lodge and wait for the weather to improve. Amazingly in the 15 minutes it took us to get back to the lodge the clouds parted and we had complete sunshine..... what was going on?! We were not complaining however and 20 minutes later we were back on another trail heading towards to Orchid garden. We had decided to go for some particularly difficult but important species for the remainder of the morning. First up was Mouse-coloured Tapaculo, this responded really quite well and John picked it up pretty quickly and everyone had views. We also tried for Spotted Bamboo Wren in the same area, and after considerable effort we all managed to get some kind of a view of this very elusive bird! We tried in several areas for Sharp-tailed Streamcreeper and Rufous-breasted Leaf-tosser but unfortunately there was no response. Next up was to use playback for Rufous-capped Motmot, within minutes it responded and eventually showed itself well. We set off back to the Lodge in time for

lunch at 12.30 picking up a couple of Grey-rumped Swifts on the way..... and the sun was still shining!

After lunch we set off again on the Blue Trail as there were certain target species remaining there. We went with specific targets and covered quite a bit of ground quickly. Things were starting to go well as we had great views of White-throated Woodcreeper, followed by a nice male Spot-billed Toucanet. This was then followed by Greenish Schiffornis and topped by a rather responsive Brazilian Antthrush that came right out onto the path in response to playback. We also had nice views of a pair of Bertonis Antbirds and White-shouldered Fire-eye. As we came out of the forest we came across a tree with several different birds in, two of which were new trip birds, a rather nice Shear-tailed Grey Tyrant and a Swainsons Flycatcher.

Surucua Trogon by Stefan Johansson

We arrived back at the lodge at 17.45 and dinner was served at 18.30 followed by the daily checklist. Thankfully we had almost had a full day of sunshine, and what a difference to the birding this made, things were finally responding well to playback and showing themselves!

FRIDAY 18TH NOVEMBER

We departed from the lodge at 06.30 to spend the morning birding the Macae de Cima Trail and then onto the Theodoro Trail in the afternoon. After a 35 minute drive we arrived at the beginning of the trail and started birding. It was quite cold with light rain and the birds were not being very responsive. We tried for Tufted Antshrike in a very reliable spot, but without any luck. We walked on a little further and there was not much going on! We arrived at the Crested Oropendola nesting site and there was quite a bit of action with birds coming in and out of the nest tree, we also picked up Giant Cowbird here and a couple of White-barred Piculets responded well to

playback and gave great views and excellent photographic opportunities. We got back in the minibus and moved on, our next stop didn't produce much apart from a Bare-throated Bellbird that gave good scope views and a Green-barred Woodpecker that after a while decided to come in to some playback. We drove on a little further to the Green-crowned Plovercrest lek site, we rigged the speaker up in a tree close by and played some Green-crowned Plovercrest calls, almost instantly 2 males came in and perched below the speaker giving great views! Over the course of the next 20 minutes various males came in and gave great photographic opportunities. We also picked up good views of Rufous-breasted Leaf-tosser at the same spot. Calling distantly was a Black-and-gold Cotinga, after a good scan we picked it up on the top of the ridge and had distant but good scope views of this endemic.

We decided to drive directly to our last stop and work our way back just in case it should rain heavily as we didn't want to miss certain target birds. We did however have one stop en route for some nesting Swallow-tailed Cotingas that I had seen at a spot a few weeks back, thankfully they were still there and what great views we had of this beautiful bird! We also had good views of Spix's Spinetail at the same spot. After approximately 20 minutes we arrived at our final point and walked a little further down the road. We had a couple of target birds here, firstly I played Slaty-Bristlefront followed by White-bibbed Antbird. A distant Spot-billed Toucanet was also calling so we tried this also. Then suddenly the Antbird responded and we used playback to call it in, and what a show it put on! We then called in the Spot-billed Toucanets and a male showed well. Then out of the blue the Bristlefront called close by. I put the speaker on a log at the edge of the forest and used playback, the bird hopped straight up on the log and showed incredibly well, even kicked the speaker off the log in all its excitement, what a fantastic spot with 3 great birds!

We walked back to the minibus picking up a White-necked Thrush on the way and then started to head to our next spot to try for White-bearded Antshrike, which unfortunately did not respond. It started to rain heavily so we made a dash for it back out onto the main road before the dirt track we were on turned into an impassable mess! We drove for a further 10 minutes to the start of the Theodoro Trail, but unfortunately it was now pouring with rain. We waited half an hour to see if it would clear up but it didn't. I called the lodge and although it was cloudy there was still no rain, so we

Slaty Bristlefront by Stefan Johansson

headed back there, had a quick coffee and then some of us headed out to try and see White-breasted Tapaculo. It responded to playback but didn't appear, so we went to another area where they hold territory and tried there. Although the bird responded, once again it didn't show. Thankfully there was a Tufted Antshrike calling distantly so we thought we should at least try! It came down the slope some distance pretty quickly, and within 15 minutes after a lot of work we managed to pick up satisfactory views of both the male and female, very elusive but beautiful birds nonetheless! It was now 17.30 so we started to walk back slowly to the lodge. The plan was to have dinner at 18.00 and then go owling, but due to strong winds we decided to postpone until tomorrow night. We had dinner and completed the checklist. What a great days birding!

SATURDAY 19TH NOVEMBER

We woke to a nice clear day. We departed the lodge at 06.30 and headed towards Pico da Caledonia. It had been very windy all night and upon arriving at the base of Caladonia I saw the truck that takes the security guards up to their base, I stopped and spoke to them and the road was completely blocked

with fallen trees and downed power cables, this was such bad luck, this meant that it wouldn't be possible to go up and bird the high altitude area, such a shame. At this point it also started to rain, what to do now? We headed back towards the Theodoro Trail, and only encountered even more rain...arrggghh! We dropped down the mountain road to the Cedae Trail and it was still raining lightly, so we decided to continue on down to the wetlands as we were missing several key species there. Shortly before arriving I spotted a white raptor up high so we got out of the minibus and got great views of a couple of White-necked Hawks. We arrived by 08.30 and started the trail, we instantly picked up several new species as when we were here earlier in the week it had poured with rain. New species for this morning included Silvery-flanked Antwren, Unicolored Antwren, Chestnut-backed Antshrike, Blond-crested Woodpecker, Long-billed Wren, Ochre-bellied Flycatcher, Reddish Hermit, Green Kingfisher, Common Waxbill and Orange-bellied Euphonia.

White-breasted Tapaculo by Stefan Johansson

We had our packed lunch and started heading back to the minibus with our fingers crossed that it would be clear enough to stop at the Cedae Trail on the way back up the mountain. We arrived at the Cedae Trail by 14.30 and although a little cold and overcast, at least it wasn't raining! It was fairly quiet on the trail and we picked up good views again of both Green-headed and Red-necked Tanagers, Plain Parakeets, Golden-crowned Warbler and Sepia-capped Flycatcher. We also managed to pick up a couple of new species which were Ochre-breasted Foliage Gleaner and Red-crowned Ant Tanager.

By 17.15 we were on our way back to the lodge, as we drove through Mury, John shouted that he had a raptor, so we pulled over, hopped out the minibus and had nice views of 6 Swallow-tailed Kites, our bonus bird of the day!

We arrived back at the lodge at 17.50 and dinner was served at 18.00 so that we could go owling. At 19.15 we left the lodge and headed towards the White Trail, unfortunately it was pretty cold (around 8 degrees centigrade) and apart from a distant Short-tailed Nighthawk calling there was nothing else going on, so we returned to the Lodge. A tough but pretty rewarding day with 14 new species being recorded.

SUNDAY 20TH NOVEMBER

After an unseasonably cold night we woke to a beautiful day of clear blue sky and sunshine. We were going to go out for a few remaining targets within the lodge grounds prior to the groups departure at 11.00. We decided in was mission White-breasted Tapaculo, a bird we had heard and tried for on many occasions within the lodge grounds. We headed towards one of the Tapaculo territories and it

was already calling. I recorded the bird and started to use playback, but the Tapaculo stayed in exactly the same position and continued to call! After 20 minutes we gave up and went to another spot. Just before we arrived I used some playback to fish for a Sharp-tailed Streamcreeper, one instantly responded and we picked it up on the side of a bank within a couple of minutes, good views of a great bird! We then used some playback for the Tapaculo, one came in very fast but didn't stop flying around in the undergrowth and then vanished, only giving us very poor views. We headed back down towards the lodge and as we walked past the other Tapaculo spot it was still calling, so we decided to give it one last go! As we neared the spot I saw a Serra do Mar Tyrant-Mannakin, a bird we had tried for quite a few times during the week, what a bonus! We tried desperately to find the Tapaculo but with no success. Then the most bizarre thing happened..... the Tapaculo came literally running down a stick towards us and stopped 3 feet in front of us, we couldn't believe our eyes, so much effort to get this bird and we had finally seen it! Very happy with ourselves (and in shock!) we took the short walk back to the Lodge with time to pack prior to departure at 11.00.

It had been a tough weeks birding with the various weather constraints, but we had seen some great birds and actually done rather well, but such a pity not being able to get access to the High Altitude area due to the tree falls.

During the week we had seen a combined group total of 273 species, of which an amazing 83 were Atlantic forest endemics with a further 13 species heard only. The record for a Rockjumper trip to this area is 85 Atlantic forest endemics, so we had done remarkably well!

Many thanks to Rainer and Bettina at the Lodge for looking after us so well during the week and providing lots of lovely food for us, also thanks to Stefan Johansson for the use of his great photos for the trip report and to Serginho for driving us so safely during the week!

Brazil - Atlantic Coastal Forest II

Annotated List of species recorded

Note: Number in brackets () indicate number of days on the tour the species was recorded.

List powered through the report generator of our partner iGoTerra.

Birds (273 in total: 259 seen, 14 heard)

Nomenclature and taxonomy follows Gill, F and D Donsker (Eds). 2016. IOC World Bird List (v 6.4).

Status codes: E = Endemic, NE = Near-endemic, I = Introduced

Slaty-breasted Wood Rail

Aramides saracura

(5) 1 Itororo Lodge 14.11, 1 Itororo Lodge 15.11, 2 Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11 and 2 Macaé de Cima 18.11.

Blackish Rail

Pardirallus nigricans nigricans

(2) 1 Duas Barras to Sumidouro 16.11 and 1 heard Pico da Caledônia 19.11.

Common Gallinule

Gallinula galeata galeata

(2) Itororo Lodge 14.11 and Pico da Caledônia 19.11.

Limpkin Aramididae

Limpkin

Aramus guarauna guarauna

(1) 1 Itororo Lodge 14.11.

Plovers and Lapwings Charadriidae

Southern Lapwing

Vanellus chilensis

(5) Guanabara Bay 12.11, Itororo Lodge 14.11, Duas Barras to Sumidouro 16.11, 2 Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Jacanas Jacanidae

Wattled Jacana

Jacana jacana

(2) Itororo Lodge 14.11 and Pico da Caledônia 19.11.

Gulls, Terns, and Skimmers Laridae

Grey-headed Gull

Chroicocephalus cirrocephalus cirrocephalus

(1) Guanabara Bay 12.11.

Pigeons and Doves Columbidae

Rock Dove

Columba livia var. domestica

(3) Itororo Lodge 12.11, Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.

Picazuro Pigeon

Patagioenas picazuro

(8) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Pale-vented Pigeon

Patagioenas cayennensis

(2) Duas Barras to Sumidouro 16.11 and Macaé de Cima 18.11.

Plumbeous Pigeon

Patagioenas plumbea

(2) 1 Itororo Lodge 13.11 and 1 heard Pico da Caledônia 19.11.

Ruddy Ground Dove

Columbina talpacoti talpacoti

(4) Itororo Lodge 12.11, Itororo Lodge 15.11, Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.

Ruddy Quail-Dove

Geotrygon montana montana

(1) 1 Itororo Lodge 15.11.

White-tipped Dove

Leptotila verreauxi

(4) 1 Itororo Lodge 14.11, 2 Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11 and 2 Pico da Caledônia 19.11.

Grey-fronted Dove

Leptotila rufaxilla

(3) 1 Itororo Lodge 13.11, 2 Itororo Lodge 15.11 and 2 Itororo Lodge 17.11.

Cuckoos Cuculidae

Guira Cuckoo

Guira guira

(3) 1 Itororo Lodge 12.11, Duas Barras to Sumidouro 16.11 and 1 Pico da Caledônia 19.11.

Greater Ani

Crotophaga major

(2) 4 Itororo Lodge 14.11 and Pico da Caledônia 19.11.

Smooth-billed Ani

Crotophaga ani

(3) Itororo Lodge 14.11, Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.

Squirrel Cuckoo

Piaya cayana

(5) Up to 2 Itororo Lodge 13-15.11, 1 heard Macaé de Cima 18.11 and 1 Pico da Caledônia 19.11.

Owls Strigidae

Tropical Screech Owl

Megascops choliba

(2) 1 heard Itororo Lodge 13.11 and 1 heard Itororo Lodge 15.11.

Rusty-barred Owl (NT)

Strix hylophila

(1) 1 Itororo Lodge 15.11.

Burrowing Owl

Athene cunicularia

(1) 1 Itororo Lodge 14.11.

Potoos Nyctibiidae

Common Potoo

Nyctibius griseus griseus

(1) 1 Itororo Lodge 15.11.

Nightjars and Allies Caprimulgidae

Short-tailed Nighthawk

Lurocalis semitorquatus

(2) 1 Itororo Lodge 15.11 and 1 heard Pico da Caledônia 19.11.

Long-trained Nightjar

Macropsalis forcipata

(1) 2 Itororo Lodge 15.11.

Swifts Apodidae

White-collared Swift

Streptoprocne zonaris zonaris

(5) Itororo Lodge 14.11, Itororo Lodge 15.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Biscutate Swift

Streptoprocne biscutata

(1) 1 Macaé de Cima 18.11.

Grey-rumped Swift

Chaetura cinereiventris

(1) 2 Itororo Lodge 17.11.

Hummingbirds Trochilidae

Saw-billed Hermit (NT)

Ramphodon naevius

(1) 1 heard Pico da Caledônia 19.11.

Rufous-breasted Hermit

Glaucis hirsutus hirsutus

(1) 1 Itororo Lodge 14.11.

Scale-throated Hermit

Phaethornis eurynome eurynome

(9) 2 Itororo Lodge 12.11, 1 Itororo Lodge 14.11, 1 Itororo Lodge 15.11, 1 Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11, 1 Macaé de Cima 18.11, 1 Pico da Caledônia 19.11 and 1 Itororo Lodge 20.11.

Planalto Hermit

Phaethornis pretrei

(1) 1 Duas Barras to Sumidouro 16.11.

Reddish Hermit

Phaethornis ruber

(1) 1 Pico da Caledônia 19.11.

Sombre Hummingbird

Aphantochroa cirrochloris

(9) Up to 1 Itororo Lodge 12-15.11, 1 Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11, 1 Macaé de Cima 18.11, 1 Pico da Caledônia 19.11 and 1 Itororo Lodge 20.11.

Swallow-tailed Hummingbird

Eupetomena macroura

(1) 2 Duas Barras to Sumidouro 16.11.

Black Jacobin

Florisuga fusca

(9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.

Green-crowned Plovercrest

Stephanoxis lalandi

(3) 1 heard Itororo Lodge 17.11, Macaé de Cima 18.11 and 1 Itororo Lodge 20.11.

Violet-capped Woodnymph

Thalurania glaucopis

(9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.

White-throated Hummingbird

Leucochloris albicollis

(9) 1 Itororo Lodge 12.11, 1 Itororo Lodge 14.11, Itororo Lodge 15.11, 2 Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11, 4 Macaé de Cima 18.11, 1 Pico da Caledônia 19.11 and 1 Itororo Lodge 20.11.

Glittering-throated Emerald

Amazilia fimbriata

(1) 1 Itororo Lodge 14.11.

Brazilian Ruby

Clytolaema rubricauda

(9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.

Trogon Trogonidae

Surucua Trogon

Trogon surrucura

(7) 1 Itororo Lodge 13.11, 1 heard Itororo Lodge 15.11, 1 heard Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11, 1 Macaé de Cima 18.11, 1 heard Pico da Caledônia 19.11 and 1 heard Itororo Lodge 20.11.

Black-throated Trogon

Trogon rufus

(1) 1 Itororo Lodge 13.11.

Kingfishers Alcedinidae

Green Kingfisher

Chloroceryle americana

(1) 1 Pico da Caledônia 19.11.

Amazon Kingfisher

Chloroceryle amazona

(2) 2 Itororo Lodge 14.11 and 4 Pico da Caledônia 19.11.

Ringed Kingfisher

Megaceryle torquata

(2) 1 Itororo Lodge 12.11 and 1 Pico da Caledônia 19.11.

Motmots Momotidae

Rufous-capped Motmot

Baryphthengus ruficapillus

(2) 1 heard Itororo Lodge 15.11 and 1 Itororo Lodge 17.11.

Jacamars Galbulidae

Three-toed Jacamar (VU)

Jacamaralcyon tridactyla

(1) 2 Duas Barras to Sumidouro 16.11.

Rufous-tailed Jacamar *Galbula ruficauda*
(2) 2 Itororo Lodge 14.11 and 2 Pico da Caledônia 19.11.

Puffbirds *Bucconidae*

White-eared Puffbird *Nystalus chacuru*

(1) 2 Duas Barras to Sumidouro 16.11.

Crescent-chested Puffbird (NT) *Malacoptila striata*

(1) 1 Duas Barras to Sumidouro 16.11.

Toucans *Ramphastidae*

Black-necked Aracari *Pteroglossus aracari*

(1) 5 Duas Barras to Sumidouro 16.11.

Spot-billed Toucanet *Selenidera maculirostris*

(4) 1 Itororo Lodge 15.11, 1 Itororo Lodge 17.11, 2 Macaé de Cima 18.11 and 1 heard Itororo Lodge 20.11.

Channel-billed Toucan (VU) *Ramphastos vitellinus*

(2) 2 Itororo Lodge 14.11 and 2 Itororo Lodge 15.11.

Toco Toucan *Ramphastos toco*

(1) 2 Duas Barras to Sumidouro 16.11.

Woodpeckers *Picidae*

White-barred Piculet *Picumnus cirratus*

(6) 1 heard Itororo Lodge 14.11, 1 heard Itororo Lodge 15.11, 1 heard Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11, 2 Macaé de Cima 18.11 and 1 heard Pico da Caledônia 19.11.

Yellow-eared Woodpecker *Veniliornis maculifrons*

(3) 2 Itororo Lodge 13.11, 1 heard Itororo Lodge 15.11 and 3 Duas Barras to Sumidouro 16.11.

Yellow-browed Woodpecker (NT) *Piculus aurulentus*

(3) 2 Itororo Lodge 13.11, 1 heard Macaé de Cima 18.11 and 1 heard Itororo Lodge 20.11.

Green-barred Woodpecker *Colaptes melanochloros*

(1) 1 Macaé de Cima 18.11.

Campo Flicker *Colaptes campestris*

(1) 4 Duas Barras to Sumidouro 16.11.

Blond-crested Woodpecker *Celeus flavescens*

(1) 2 Pico da Caledônia 19.11.

Lineated Woodpecker *Dryocopus lineatus*

(1) 1 Itororo Lodge 13.11.

Falcons and Caracaras *Falconidae*

Southern Crested Caracara *Caracara plancus*

(2) Duas Barras to Sumidouro 16.11 and 2 Pico da Caledônia 19.11.

Yellow-headed Caracara *Milvago chimachima*

(3) 2 Itororo Lodge 14.11, 2 Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.

Barred Forest Falcon *Micrastur ruficollis*

(1) 1 heard Macaé de Cima 18.11.

African & New World Parrots *Psittacidae*

Plain Parakeet *Brotogeris tirica*

(2) Itororo Lodge 15.11 and Pico da Caledônia 19.11.

Scaly-headed Parrot *Pionus maximiliani*

(5) Itororo Lodge 13.11, 2 Itororo Lodge 15.11, 1 Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11 and Macaé de Cima 18.11.

Blue-winged Parrotlet *Forpus xanthopterygius*

(1) 2 Duas Barras to Sumidouro 16.11.

Maroon-bellied Parakeet *Pyrrhura frontalis*

(9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de

Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.

Blue-winged Macaw (NT) *Primolius maracana*

(1) 4 Duas Barras to Sumidouro 16.11.

White-eyed Parakeet *Psittacara leucophthalmus*

(1) Duas Barras to Sumidouro 16.11.

Ovenbirds and Woodcreepers *Furnariidae*

Band-tailed Hornero *Furnarius figulus*

(2) 1 Duas Barras to Sumidouro 16.11 and 1 Pico da Caledônia 19.11.

Rufous Hornero *Furnarius rufus*

(4) 2 Itororo Lodge 14.11, 1 Itororo Lodge 15.11, 2 Duas Barras to Sumidouro 16.11 and 1 Macaé de Cima 18.11.

Rufous-capped Spinetail *Synallaxis ruficapilla*

(3) 2 Itororo Lodge 13.11, 1 Itororo Lodge 17.11 and 1 heard Macaé de Cima 18.11.

Grey-bellied Spinetail *Synallaxis cinerascens*

(2) 1 Itororo Lodge 13.11 and 1 heard Itororo Lodge 17.11.

Pale-breasted Spinetail *Synallaxis albescens*

(1) 1 Duas Barras to Sumidouro 16.11.

Spix's Spinetail *Synallaxis spixi*

(1) 1 Macaé de Cima 18.11.

Pallid Spinetail *Cranioleuca pallida*

(3) 2 Itororo Lodge 12.11, 2 Itororo Lodge 13.11 and 2 Pico da Caledônia 19.11.

Yellow-chinned Spinetail *Certhiaxis cinnamomeus*

(3) 2 Itororo Lodge 14.11, 4 Duas Barras to Sumidouro 16.11 and 2 Pico da Caledônia 19.11.

Rufous-fronted Thornbird *Phacellodomus rufifrons*

(1) 4 Duas Barras to Sumidouro 16.11.

Orange-eyed Thornbird *Phacellodomus erythrophthalmus*

(2) 4 Itororo Lodge 13.11 and 2 Itororo Lodge 15.11.

Firewood-gatherer *Anumbius annumbi*

(1) 1 Duas Barras to Sumidouro 16.11.

White-browed Foliage-gleaner (NT) *Anabacerthia amaurotis*

(1) 1 Itororo Lodge 13.11.

Ochre-breasted Foliage-gleaner *Philydor lichtensteini*

(1) 2 Pico da Caledônia 19.11.

Black-capped Foliage-gleaner *Philydor atricapillus*

(2) 1 heard Itororo Lodge 15.11 and 1 heard Pico da Caledônia 19.11.

Buff-fronted Foliage-gleaner *Philydor rufum*

(7) 1 Itororo Lodge 12.11, 2 Itororo Lodge 13.11, 2 Itororo Lodge 15.11, 2 Itororo Lodge 17.11, 2 Macaé de Cima 18.11, 3 Pico da Caledônia 19.11 and 1 heard Itororo Lodge 20.11.

White-collared Foliage-gleaner *Anabazenops fuscus*

(5) 2 Itororo Lodge 13.11, 2 Itororo Lodge 15.11, 1 heard Itororo Lodge 17.11, 1 heard Macaé de Cima 18.11 and 1 heard Itororo Lodge 20.11.

Pale-browed Treehunter *Cichlocolaptes leucophrus*

(1) 1 Itororo Lodge 15.11.

Rufous-breasted Leaftosser *Sclerurus scansor*

(3) 1 Macaé de Cima 18.11, 1 heard Pico da Caledônia 19.11 and 1 heard Itororo Lodge 20.11.

Sharp-tailed Streamcreeper *Lochmias nematura nematura*

(2) 1 heard Itororo Lodge 15.11 and 1 Itororo Lodge 20.11.

Sharp-billed Treehunter *Heliobletus contaminatus*

(1) 2 Itororo Lodge 13.11.

Plain Xenops *Xenops minutus*

(1) 1 Itororo Lodge 13.11.

Streaked Xenops *Xenops rutilans*

(2) 1 Itororo Lodge 13.11 and 2 Duas Barras to Sumidouro 16.11.

Plain-winged Woodcreeper	<i>Dendrocincla turdina</i>
(2) 1 heard Itororo Lodge 14.11 and 1 heard Pico da Caledônia 19.11.	
Olivaceous Woodcreeper	<i>Sittasomus griseicapillus</i>
(7) 1 Itororo Lodge 12.11, Itororo Lodge 15.11, 1 Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11, 2 Macaé de Cima 18.11 and 1 Itororo Lodge 20.11.	
White-throated Woodcreeper	<i>Xiphocolaptes albicollis</i>
(1) 1 Itororo Lodge 17.11.	
Planalto Woodcreeper	<i>Dendrocolaptes platyrostris</i>
(1) 1 Itororo Lodge 13.11.	
Lesser Woodcreeper	<i>Xiphorhynchus fuscus</i>
(5) Up to 1 Itororo Lodge 13-15.11, 1 Duas Barras to Sumidouro 16.11 and 1 Itororo Lodge 17.11.	
Scaled Woodcreeper	<i>Lepidocolaptes squamatus</i>
(2) 1 Itororo Lodge 12.11 and 2 Itororo Lodge 13.11.	
Black-billed Scythebill	<i>Campylorhamphus falcularius</i>
(1) 1 Itororo Lodge 13.11.	

Antbirds *Thamnophilidae*

Giant Antshrike	<i>Batara cinerea cinerea</i>
(2) 1 heard Itororo Lodge 13.11 and 1 Itororo Lodge 15.11.	
Large-tailed Antshrike	<i>Mackenziaena leachii</i>
(1) 1 Itororo Lodge 13.11.	
Tufted Antshrike	<i>Mackenziaena severa</i>
(2) 1 heard Itororo Lodge 13.11 and 2 Macaé de Cima 18.11.	
Chestnut-backed Antshrike	<i>Thamnophilus palliatus</i>
(2) 1 heard Itororo Lodge 14.11 and 1 Pico da Caledônia 19.11.	
Sooretama Slaty Antshrike	<i>Thamnophilus ambiguus</i>
(2) 1 Itororo Lodge 14.11 and 1 Pico da Caledônia 19.11.	
Variable Antshrike	<i>Thamnophilus caerulescens</i>
(4) 2 Itororo Lodge 13.11, 2 Itororo Lodge 15.11, 1 Itororo Lodge 17.11 and 1 heard Macaé de Cima 18.11.	
Spot-breasted Antwren (NT)	<i>Dysithamnus stictothorax</i>
(2) 1 heard Itororo Lodge 15.11 and 1 heard Pico da Caledônia 19.11.	
Plain Antwren	<i>Dysithamnus mentalis</i>
(1) Itororo Lodge 15.11.	
Silvery-flanked Antwren	<i>Myrmotherula luctuosa</i>
(1) Pico da Caledônia 19.11.	
Unicolored Antwren (NT)	<i>Myrmotherula unicolor</i>
(1) 3 Pico da Caledônia 19.11.	
Star-throated Antwren	<i>Rhopias gularis</i>
(1) 1 Itororo Lodge 15.11.	
Serra Antwren	<i>Formicivora serrana</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Bertoni's Antbird	<i>Drymophila rubricollis</i>
(2) 1 Itororo Lodge 13.11 and 2 Itororo Lodge 17.11.	
Ochre-rumped Antbird (NT)	<i>Drymophila ochropyga</i>
(5) 1 Itororo Lodge 13.11, 1 Itororo Lodge 15.11, 1 heard Itororo Lodge 17.11, 1 heard Macaé de Cima 18.11 and 1 heard Itororo Lodge 20.11.	
Dusky-tailed Antbird	<i>Drymophila malura</i>
(2) 1 Itororo Lodge 17.11 and 1 heard Macaé de Cima 18.11.	
Scaled Antbird	<i>Drymophila squamata</i>
(1) 1 Pico da Caledônia 19.11.	
Streak-capped Antwren	<i>Terenura maculata</i>
(1) 2 Itororo Lodge 15.11.	
White-shouldered Fire-eye	<i>Pyriglena leucoptera</i>
(4) 1 heard Itororo Lodge 13.11, 1 Itororo Lodge 15.11, 1 heard Duas Barras to Sumidouro 16.11 and 1	

Itororo Lodge 17.11.

White-bibbed Antbird

Myrmeciza loricata

(1) 1 Macaé de Cima 18.11.

Antthrushes Formicariidae

Rufous-capped Antthrush

Formicarius colma

(1) 1 heard Pico da Caledônia 19.11.

Cryptic Antthrush

Chamaeza meruloides

(4) 1 Itororo Lodge 15.11, 1 heard Itororo Lodge 17.11, 1 heard Macaé de Cima 18.11 and 1 heard Itororo Lodge 20.11.

Rufous-tailed Antthrush

Chamaeza ruficauda

(3) 1 heard Itororo Lodge 13.11, 1 Itororo Lodge 17.11 and 1 heard Itororo Lodge 20.11.

Gnateaters Conopophagidae

Rufous Gnateater

Conopophaga lineata

(4) 2 Itororo Lodge 13.11, 2 Itororo Lodge 15.11, 1 Itororo Lodge 17.11 and 1 heard Macaé de Cima 18.11.

Black-cheeked Gnateater

Conopophaga melanops

(1) 1 Itororo Lodge 15.11.

Tapaculos Rhinocryptidae

Spotted Bamboowren (NT)

Psilorhamphus guttatus

(1) 1 Itororo Lodge 17.11.

Slaty Bristlefront (NT)

Merulaxis ater

(1) 1 Macaé de Cima 18.11.

White-breasted Tapaculo (NT)

Eleoscytalopus indigoticus

(4) 1 heard Itororo Lodge 15.11, 1 heard Itororo Lodge 17.11, 1 heard Macaé de Cima 18.11 and 2 Itororo Lodge 20.11.

Mouse-colored Tapaculo

Scytalopus speluncae

(1) 1 Itororo Lodge 17.11.

Tyrant Flycatchers Tyrannidae

Planalto Tyrannulet

Phyllomyias fasciatus

(4) 2 Itororo Lodge 13.11, 2 Duas Barras to Sumidouro 16.11, 4 Itororo Lodge 17.11 and 1 Macaé de Cima 18.11.

Rough-legged Tyrannulet

Phyllomyias burmeisteri

(2) 1 heard Itororo Lodge 15.11 and 1 Itororo Lodge 17.11.

Grey-capped Tyrannulet (NT)

Phyllomyias griseocapilla

(1) 1 Itororo Lodge 17.11.

Yellow-bellied Elaenia

Elaenia flavogaster flavogaster

(1) 2 Duas Barras to Sumidouro 16.11.

Yellow Tyrannulet

Capsiempis flaveola

(2) 1 Duas Barras to Sumidouro 16.11 and 1 Macaé de Cima 18.11.

Southern Antpipit

Corythopsis delalandi

(1) 1 heard Duas Barras to Sumidouro 16.11.

Mottle-cheeked Tyrannulet

Phylloscartes ventralis ventralis

(3) 1 Itororo Lodge 13.11, 1 Itororo Lodge 15.11 and 1 Itororo Lodge 17.11.

Ochre-bellied Flycatcher

Mionectes oleagineus

(1) 1 Pico da Caledônia 19.11.

Grey-hooded Flycatcher

Mionectes rufiventris

(2) 2 Itororo Lodge 15.11 and 1 Pico da Caledônia 19.11.

Sepia-capped Flycatcher

Leptopogon amaurocephalus

(5) 1 heard Itororo Lodge 13.11, 1 Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11, 1 Macaé de Cima 18.11 and 2 Pico da Caledônia 19.11.

Bran-colored Flycatcher	<i>Myiophobus fasciatus</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Drab-breasted Bamboo Tyrant	<i>Hemitriccus diops</i>
(3) 1 Itororo Lodge 13.11, 1 heard Itororo Lodge 17.11 and 1 heard Itororo Lodge 20.11.	
Hangnest Tody-Tyrant	<i>Hemitriccus nidipendulus</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Eared Pygmy Tyrant	<i>Myiornis auricularis</i>
(1) 2 Itororo Lodge 15.11.	
Ochre-faced Tody-Flycatcher	<i>Poecilatriccus plumbeiceps</i>
(6) 1 Itororo Lodge 13.11, 2 Itororo Lodge 15.11, 1 heard Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11, 1 heard Macaé de Cima 18.11 and 1 heard Itororo Lodge 20.11.	
Yellow-lored Tody-Flycatcher	<i>Todirostrum poliocephalum</i>
(3) 1 Itororo Lodge 14.11, 2 Duas Barras to Sumidouro 16.11 and 1 heard Pico da Caledônia 19.11.	
Common Tody-Flycatcher	<i>Todirostrum cinereum</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Yellow-olive Flatbill	<i>Tolmomyias sulphurescens</i>
(4) 1 Itororo Lodge 13.11, 1 Itororo Lodge 15.11, 1 Duas Barras to Sumidouro 16.11 and 1 Macaé de Cima 18.11.	
Cliff Flycatcher	<i>Hirundinea ferruginea</i>
(2) 2 Duas Barras to Sumidouro 16.11 and 1 Itororo Lodge 17.11.	
Euler's Flycatcher	<i>Lathrotriccus euleri</i>
(1) 1 Itororo Lodge 17.11.	
Crested Black Tyrant	<i>Knipolegus lophotes</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Yellow-browed Tyrant	<i>Satrapa icterophrys</i>
(1) 2 Duas Barras to Sumidouro 16.11.	
White-rumped Monjita	<i>Xolmis velatus</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Streamer-tailed Tyrant	<i>Gubernetes yetapa</i>
(1) 4 Duas Barras to Sumidouro 16.11.	
Shear-tailed Grey Tyrant	<i>Muscipipra vetula</i>
(1) 1 Itororo Lodge 17.11.	
Masked Water Tyrant	<i>Fluvicola nengeta nengeta</i>
(3) Itororo Lodge 14.11, Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.	
White-headed Marsh Tyrant	<i>Arundinicola leucocephala</i>
(2) 4 Itororo Lodge 14.11 and 2 Pico da Caledônia 19.11.	
Long-tailed Tyrant	<i>Colonia colonus colonus</i>
(1) 1 Duas Barras to Sumidouro 16.11.	
Cattle Tyrant	<i>Machetornis rixosa rixosa</i>
(1) Duas Barras to Sumidouro 16.11.	
Piratic Flycatcher	<i>Legatus leucophaeus leucophaeus</i>
(2) 1 Itororo Lodge 13.11 and 2 Pico da Caledônia 19.11.	
Social Flycatcher	<i>Myiozetetes similis</i>
(3) 2 Itororo Lodge 14.11, 2 Duas Barras to Sumidouro 16.11 and 2 Pico da Caledônia 19.11.	
Great Kiskadee	<i>Pitangus sulphuratus</i>
(8) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and Pico da Caledônia 19.11.	
Streaked Flycatcher	<i>Myiodynastes maculatus</i>
(4) 2 Duas Barras to Sumidouro 16.11, 3 Itororo Lodge 17.11, Macaé de Cima 18.11 and 2 Pico da Caledônia 19.11.	
Boat-billed Flycatcher	<i>Megarynchus pitangua pitangua</i>
(3) 1 heard Itororo Lodge 13.11, 1 heard Itororo Lodge 14.11 and 1 Macaé de Cima 18.11.	
Variegated Flycatcher	<i>Empidonomus varius</i>
(2) 1 Duas Barras to Sumidouro 16.11 and 1 Itororo Lodge 17.11.	

Tropical Kingbird

Tyrannus melancholicus

(8) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Fork-tailed Flycatcher

Tyrannus savana

(2) 2 Itororo Lodge 12.11 and Duas Barras to Sumidouro 16.11.

Swainson's Flycatcher

Myiarchus swainsoni

(1) 1 Itororo Lodge 17.11.

Short-crested Flycatcher

Myiarchus ferox

(1) 3 Duas Barras to Sumidouro 16.11.

Grey-hooded Attila

Attila rufus

(3) 1 heard Itororo Lodge 14.11, 1 Itororo Lodge 15.11 and 1 heard Pico da Caledônia 19.11.

Cotingas Cotingidae

Swallow-tailed Cotinga (NT)

Phibalura flavirostris

(1) 2 Macaé de Cima 18.11.

Hooded Berryeater (NT)

Carpornis cucullata

(1) 1 heard Macaé de Cima 18.11.

Bare-throated Bellbird (VU)

Procnias nudicollis

(7) 1 heard Itororo Lodge 12.11, 1 heard Itororo Lodge 14.11, 1 Itororo Lodge 15.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and 1 Itororo Lodge 20.11.

Black-and-gold Cotinga (NT)

Tijuca atra

(1) 1 Macaé de Cima 18.11.

Manakins Pipridae

Serra do Mar Tyrant-Manakin

Neopelma chrysolophum

(2) 1 heard Itororo Lodge 17.11 and 1 Itororo Lodge 20.11.

Blue Manakin

Chiroxiphia caudata

(6) Itororo Lodge 13.11, Itororo Lodge 15.11, Itororo Lodge 17.11, 2 Macaé de Cima 18.11, 1 Pico da Caledônia 19.11 and 1 heard Itororo Lodge 20.11.

Pin-tailed Manakin

Illicura militaris

(1) 2 Itororo Lodge 15.11.

White-bearded Manakin

Manacus manacus

(2) 3 Itororo Lodge 14.11 and 2 Pico da Caledônia 19.11.

Tityras, Becards Tityridae

Whiskered Myiobius

Myiobius barbatus

(5) 1 Itororo Lodge 13.11, 1 Itororo Lodge 15.11, 1 Itororo Lodge 17.11, 1 Macaé de Cima 18.11 and 1 Pico da Caledônia 19.11.

Greenish Schiffornis

Schiffornis virescens

(2) 1 heard Itororo Lodge 13.11 and 1 Itororo Lodge 17.11.

Green-backed Becard

Pachyramphus viridis

(2) 1 Itororo Lodge 13.11 and 1 Duas Barras to Sumidouro 16.11.

Chestnut-crowned Becard

Pachyramphus castaneus

(6) Up to 2 Itororo Lodge 13-15.11, 2 Duas Barras to Sumidouro 16.11, 2 Itororo Lodge 17.11 and 2 Pico da Caledônia 19.11.

White-winged Becard

Pachyramphus polychopterus

(3) 2 Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11 and 1 heard Itororo Lodge 20.11.

Crested Becard

Pachyramphus validus validus

(1) 1 Itororo Lodge 15.11.

Vireos Vireonidae

Rufous-browed Peppershrike

Cyclarhis gujanensis

(5) 1 Itororo Lodge 13.11, 1 Itororo Lodge 15.11, 1 Itororo Lodge 17.11, 1 heard Macaé de Cima 18.11 and 1 Pico da Caledônia 19.11.

Red-eyed Vireo

Vireo olivaceus

(1) 1 Duas Barras to Sumidouro 16.11.

Rufous-crowned Greenlet

Hylophilus poicilotis

(4) 2 Itororo Lodge 13.11, 1 Itororo Lodge 15.11, 2 Itororo Lodge 17.11 and 2 Macaé de Cima 18.11.

Lemon-chested Greenlet

Hylophilus thoracicus

(1) 1 Itororo Lodge 14.11.

Swallows *Hirundinidae*

White-rumped Swallow

Tachycineta leucorrhoa

(1) 2 Duas Barras to Sumidouro 16.11.

Brown-chested Martin

Progne tapera

(3) 2 Itororo Lodge 14.11, Duas Barras to Sumidouro 16.11 and 2 Pico da Caledônia 19.11.

Blue-and-white Swallow

Notiochelidon cyanoleuca

(4) Itororo Lodge 14.11, 2 Duas Barras to Sumidouro 16.11, 1 Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Southern Rough-winged Swallow

Stelgidopteryx ruficollis ruficollis

(4) Itororo Lodge 14.11, Duas Barras to Sumidouro 16.11, Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Tawny-headed Swallow

Alopochelidon fucata

(1) 2 Duas Barras to Sumidouro 16.11.

Donacobius *Donacobiidae*

Black-capped Donacobius

Donacobius atricapilla

(2) 1 Itororo Lodge 14.11 and 3 Duas Barras to Sumidouro 16.11.

Wrens *Troglodytidae*

Long-billed Wren

Cantorchilus longirostris

(1) 2 Pico da Caledônia 19.11.

House Wren

Troglodytes aedon

(3) 1 Duas Barras to Sumidouro 16.11, 1 Itororo Lodge 17.11 and 1 heard Pico da Caledônia 19.11.

Mockingbirds and Thrashers *Mimidae*

Chalk-browed Mockingbird

Mimus saturninus

(1) Duas Barras to Sumidouro 16.11.

Thrushes and Allies *Turdidae*

Yellow-legged Thrush

Turdus flavipes

(4) 2 Itororo Lodge 12.11, 1 Itororo Lodge 17.11 and 2 Macaé de Cima 18.11.

Rufous-bellied Thrush

Turdus rufiventris

(8) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and Pico da Caledônia 19.11.

Pale-breasted Thrush

Turdus leucomelas

(3) 1 Itororo Lodge 13.11, 3 Duas Barras to Sumidouro 16.11 and 1 Itororo Lodge 20.11.

Creamy-bellied Thrush

Turdus amaurochalinus

(2) 2 Duas Barras to Sumidouro 16.11 and 1 Macaé de Cima 18.11.

White-necked Thrush

Turdus albicollis

(1) 1 Macaé de Cima 18.11.

Old World Sparrows *Passeridae*

House Sparrow

Passer domesticus domesticus

(3) Itororo Lodge 12.11, 1 Itororo Lodge 14.11 and Duas Barras to Sumidouro 16.11.

Waxbills and Allies Estrildidae

Common Waxbill (I)

Estrilda astrild astrild

(1) 2 Pico da Caledônia 19.11.

Finches, Euphonias Fringillidae

Hooded Siskin

Spinus magellanicus

(4) 1 Itororo Lodge 12.11, 1 Itororo Lodge 13.11, 2 Duas Barras to Sumidouro 16.11 and 2 Itororo Lodge 17.11.

Violaceous Euphonia

Euphonia violacea

(1) 1 heard Pico da Caledônia 19.11.

Orange-bellied Euphonia

Euphonia xanthogaster

(1) 1 Pico da Caledônia 19.11.

New World Warblers Parulidae

White-rimmed Warbler

Myiothlypis leucoblephara leucoblephara

(3) 1 Itororo Lodge 13.11, 1 Itororo Lodge 17.11 and 1 heard Macaé de Cima 18.11.

Golden-crowned Warbler

Basileuterus culicivorus

(7) Itororo Lodge 13.11, Itororo Lodge 15.11, 4 Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, 2 Pico da Caledônia 19.11 and 1 Itororo Lodge 20.11.

Troupials and Allies Icteridae

Crested Oropendola

Psarocolius decumanus

(8) Up to 2 Itororo Lodge 12-15.11, 2 Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and 2 Pico da Caledônia 19.11.

Red-rumped Cacique

Cacicus haemorrhous

(3) Itororo Lodge 14.11, 2 Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.

Giant Cowbird

Molothrus oryzivorus oryzivorus

(1) 3 Macaé de Cima 18.11.

Shiny Cowbird

Molothrus bonariensis

(2) Duas Barras to Sumidouro 16.11 and 2 Macaé de Cima 18.11.

Chopi Blackbird

Gnorimopsar chopi

(1) Duas Barras to Sumidouro 16.11.

Chestnut-capped Blackbird

Chrysomus ruficapillus

(1) Duas Barras to Sumidouro 16.11.

Bananaquit Coerebidae

Bananaquit

Coereba flaveola

(9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.

Buntings, Sparrows and Allies Emberizidae

Rufous-collared Sparrow

Zonotrichia capensis

(9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and 2 Itororo Lodge 20.11.

Grassland Sparrow

Ammodramus humeralis

(1) 1 Duas Barras to Sumidouro 16.11.

Half-collared Sparrow

Arremon semitorquatus

(2) 1 heard Itororo Lodge 15.11 and 1 Duas Barras to Sumidouro 16.11.

Tanagers and Allies Thraupidae

Magpie Tanager

Cissopis leverianus

(1) 1 Macaé de Cima 18.11.

Hooded Tanager

Nemosia pileata

(1) 1 Duas Barras to Sumidouro 16.11.

Olive-green Tanager (1) 4 Itororo Lodge 15.11.	<i>Orthogonys chloricterus</i>
Black-goggled Tanager (6) Up to 2 Itororo Lodge 13-15.11, Itororo Lodge 17.11, Macaé de Cima 18.11 and 4 Pico da Caledônia 19.11.	<i>Trichothraupis melanops</i>
Flame-crested Tanager (3) 2 Itororo Lodge 14.11, Itororo Lodge 15.11 and 2 Pico da Caledônia 19.11.	<i>Tachyphonus cristatus</i>
Ruby-crowned Tanager (8) Observed Itororo Lodge 12-15.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.	<i>Tachyphonus coronatus</i>
Brazilian Tanager (2) 3 Itororo Lodge 14.11 and 1 Pico da Caledônia 19.11.	<i>Ramphocelus bresilia</i>
Sayaca Tanager (7) Observed Itororo Lodge 12-15.11, 2 Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11 and Macaé de Cima 18.11.	<i>Thraupis sayaca sayaca</i>
Azure-shouldered Tanager (NT) (5) Up to 4 Itororo Lodge 12-15.11 and 2 Itororo Lodge 17.11.	<i>Thraupis cyanoptera</i>
Golden-chevroned Tanager (9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.	<i>Thraupis ornata</i>
Fawn-breasted Tanager (1) 2 Itororo Lodge 13.11.	<i>Pipraeidea melanonota melanonota</i>
Green-headed Tanager (2) 2 Itororo Lodge 15.11 and 2 Pico da Caledônia 19.11.	<i>Tangara seledon</i>
Red-necked Tanager (2) Itororo Lodge 15.11 and Pico da Caledônia 19.11.	<i>Tangara cyanocephala</i>
Brassy-breasted Tanager (9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.	<i>Tangara desmaresti</i>
Gilt-edged Tanager (1) 2 Duas Barras to Sumidouro 16.11.	<i>Tangara cyanoventris</i>
Burnished-buff Tanager (9) Up to 2 Itororo Lodge 14-17.11, 2 Duas Barras to Sumidouro 18.11, 2 Itororo Lodge 19.11 and Macaé de Cima 20.11.	<i>Tangara cayana</i>
Swallow Tanager (1) 2 Duas Barras to Sumidouro 16.11.	<i>Tersina viridis</i>
Blue Dacnis (9) Observed Itororo Lodge 12-15.11, Duas Barras to Sumidouro 16.11, Itororo Lodge 17.11, Macaé de Cima 18.11, Pico da Caledônia 19.11 and Itororo Lodge 20.11.	<i>Dacnis cayana</i>
Rufous-headed Tanager (4) 1 Itororo Lodge 12.11, 3 Itororo Lodge 13.11, 2 Itororo Lodge 15.11 and 2 Itororo Lodge 17.11.	<i>Hemithraupis ruficapilla</i>
Yellow-backed Tanager (1) 1 Itororo Lodge 14.11.	<i>Hemithraupis flavicollis</i>
Chestnut-vented Conebill (1) 1 Duas Barras to Sumidouro 16.11.	<i>Conirostrum speciosum</i>
Saffron Finch (3) 2 Itororo Lodge 14.11, Duas Barras to Sumidouro 16.11 and Pico da Caledônia 19.11.	<i>Sicalis flaveola</i>
Black-throated Grosbeak (1) 2 Itororo Lodge 15.11.	<i>Saltator fuliginosus</i>
Green-winged Saltator (3) 2 Itororo Lodge 13.11, 2 Itororo Lodge 15.11 and 1 heard Macaé de Cima 18.11.	<i>Saltator similis</i>
Blue-black Grassquit (1) Duas Barras to Sumidouro 16.11.	<i>Volatinia jacarina</i>

Double-collared Seedeater

Sporophila caerulescens

(2) Duas Barras to Sumidouro 16.11 and 1 Itororo Lodge 17.11.

White-bellied Seedeater

Sporophila leucoptera

(1) 1 Duas Barras to Sumidouro 16.11.

Cardinals and Allies *Cardinalidae*

Red-crowned Ant Tanager

Habia rubica

(1) 2 Pico da Caledônia 19.11.

Mammals (3 in total)

Common Marmoset

Callithrix jacchus

Capybara

Hydrochoerus hydrochaeris

Guianan Squirrel

Sciurus aestuans

Reptiles (2 in total)

Broad-snouted Caiman

Caiman latirostris

Argentine Black-and-white Tegu

Salvator merianae
