## **Trip Report**

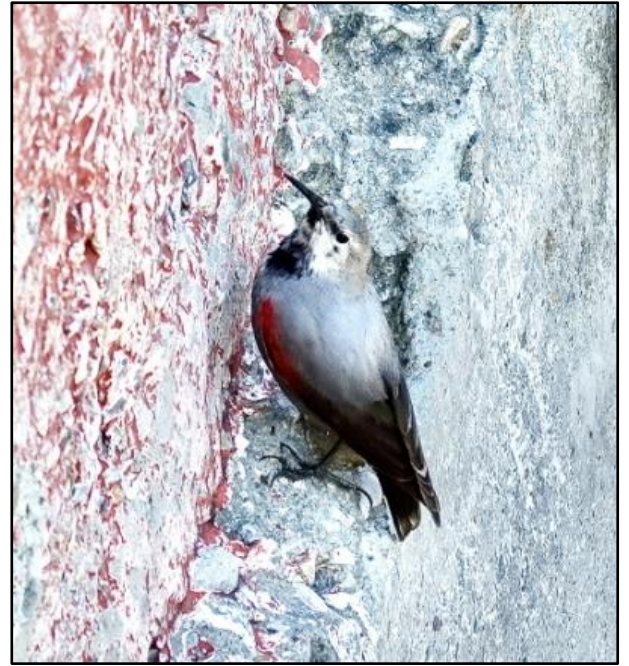

Bengal Tiger by Stanley Furtak

**Trip report compiled by Tour Leader: André Bernon**

## ***Tour in Detail***

India is an extremely large and diverse country, habitat wise and culturally. We spent three weeks exploring the northern region of this fantastic country. We started in the busy Delhi, spending over a week in the foothills of the Himalayas including the famous Jim Corbett National Park before heading down to the central Ranthambore, Chambal and Agra - ending off with the magnificent Taj Mahal! We had fantastic sightings of many great birds and mammals. A tiger tour is not complete with multiple sightings of this regal creature, and we also got lucky with Sloth Bear and the rare Gharial!

We finally set off from Delhi and had a great introduction in Sultanpur and surrounding areas. We were blown away with over a hundred species of bird and even Nilgai! Highlights today were a vagrant White-tailed Eagle alongside Eastern Imperial and Booted. Spotted Owlets entertained us whilst an Orange-headed Thrush looked on from the undergrowth. Waterbirds and other birds associated with the surroundings proved plentiful. We managed to rake up Red-crested and Common Pochards, Tufted, Ferruginous and Knob-billed Ducks along many other species. Nearby, we managed Striated Babbler, Delicate Prinia, Ruddy-breasted, Brown and the rare Spotted Crakes!

**Wallcreeper by Stanley Furtak**

We left for the Himalayas and ventured there via train with great looks at the countryside. Upon reaching Sattal, we set straight to work and were rewarded with Tawny Fish Owl, Himalayan Black-lored Tit, Long-billed and Scaly Thrushes! A hide/blind was visited the following day and what a treat this was. We got excellent looks at Grey Treepie, Grey-headed Woodpecker, Plum-headed Parakeet, Rufous-throated Partridge, Kalij Pheasant and Red-billed Leiothrix. The surrounds produced Brown-fronted Woodpecker, Blue-capped, Plumbeous and White-capped Redstarts.

**Great Hornbill by Stanley Furtak**

We reached the beautiful Highland city of Nainital and spent three nights here. From here we ventured up to higher elevation with superb looks of the Himalayas! Koklass Pheasant was a major target here and we had superb looks at a male! Other highlights here included Scaly-breasted Cupwing, Chestnut-headed Tesia, Himalayan Rubythroat, Black Francolin, Black-throated and Rufous-breasted Accentors, Black-headed and Eurasian Jays, Chestnut-crowned Laughingthrush, Slaty-backed Forktail, Himalayan and Black Bulbuls, Speckled Piculet and finally a Hill Partridge!

Jim Corbett was our next destination, and the Kosi River was explored well beforehand. We managed to find both of our major targets here which were the monotypic family species, Ibisbill and Wallcreeper!!! We ventured into the park and got our first Tiger

sighting the following morning! A beautiful female showed well as she crossed the river and marked her territory on the far bank before disappearing into the mist. The clean waters gave us remarkable views of the prehistoric and rare Gharial alongside the common Mugger Crocodile. Other great finds here were Great Hornbill, White-crested Laughingthrush, Siberian Rubythroat, Slate-headed and Red-breasted Parakeets, Stork-billed Kingfisher, Pallas's, and Lesser Fish Eagles.

We unfortunately had to leave this great park as we made our way back down to Delhi via train. A quick night at our comfortable accommodation saw us headed even further south to the world famous Ranthambore Tiger

Reserve; and boy, did it not disappoint. We had super sightings of multiple Tiger including a mating pair right next to our vehicle! We also managed to see the seldom seen Sloth Bear here alongside many great bird species. Highlights included Painted Spurfowl, Alexandrine Parakeet, the rare White-naped, Brown-capped Pygmy and Yellow-crowned Woodpeckers, Rufous Treepie up close and personal, Painted Sandgrouse, Brown Fish Owl, Red-headed and Indian Vultures amongst many other great species.

We caught a short train ride to Bharatpur and explored this region including the famous Kaeoladeo National Park. Birds were plentiful such as Bar-headed Goose, White-tailed Lapwing, Black Bittern, Greater Spotted,

Booted and Eastern Imperial Eagles, Dusky Eagle-Owl, Indian Scops and Spotted Owls, Spot-billed and Great White Pelicans alongside Golden Jackals, Nilgai, Spotted Deer, Nilgai and a colony of Indian Flying Foxes. A nearby field yielded Chestnut-bellied Sandgrouse, Desert and Isabelline Wheatears, Indian Roller, White-throated Kingfisher and many Indian Silverbills.

We then made our way to Dholpur and had a great adventure on the Chambal River. We ticked off the elegant Indian Skimmer, Pallas's Gull, Sand Lark, Black-bellied and River Terns, Red-naped Ibis, and Temminck's Stint. Our final destination was the cultural hub Agra and the Taj Mahal. The Taj Mahal was a spectacle to be witnessed in person and the favourite quote of the day was that "The Taj was merely a tear drop on the cheek of time". We finished off in Delhi whilst getting Sarus Crane en route! A fantastic ending to a memorable trip.
